

## We go the extra mile in caring for your child!

**M**aking sure your child is safe and secure in your absence is what we're all about. In order to do that we train our staff and volunteers carefully and thoroughly

We also use **Nursery Safe© Stickers** to ensure that your child's needs will not in any way be overlooked.

When checking in, please be sure to mention any special needs to the staff so they can be written on the appropriate sticker:

•allergies •special health conditions •vision or hearing impairment •asthma •medication •A.D.D. •potty training •first time visitor •teething

Have a great worship experience today as you leave your child in our loving care.
